

Alila | PURNAMA

RESORT GUIDE

Fascinating Sea Voyages ...

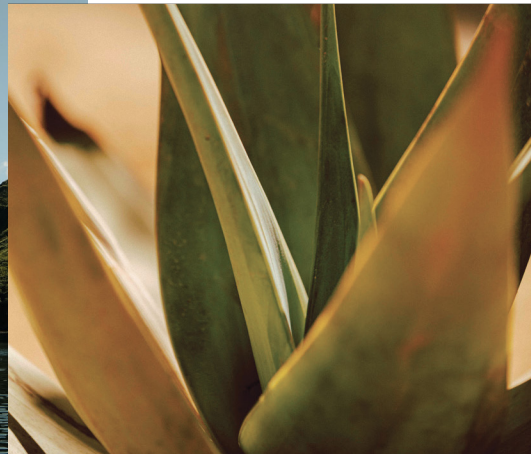

Profound Change

The 46-meter long Alila Purnama consists of three decks and has been built by hand in the traditional style of a Phinisi, as used by the Bugis seafarers from South Sulawesi, Indonesia

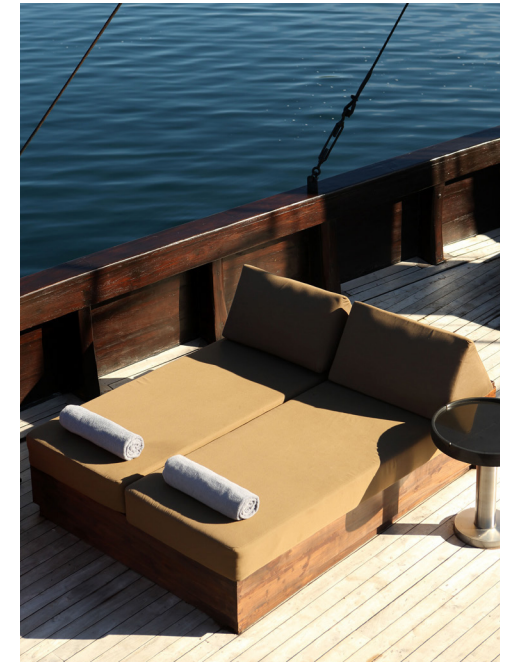

Where Awe Meets Aah

Profound experiences transport us, reminding us how meaningful it is to be here, present and anywhere at all. Alila exists to immerse guests in rich culture and the stunning natural surroundings of the environment. This philosophy continues off-property in the local community, where Alila has earned privileged, intimate access to the rarest experiences in each destination.

Curated Experiences

Alila Purnama offers diving activities for certified divers of all levels, guided by experienced PADI-certified dive masters with a 4:1 diver-to-guide ratio. Guests can explore pristine dive sites while enjoying premium onboard equipment and Nitrox availability. A full range of equipment is available for all guests, along with a dedicated freshwater rinse tank for personal gear.

For both divers and non divers, a variety of water activities including snorkeling, kayaking, stand up paddleboarding, and light towed watersports such as wakeboarding and waterskiing are available, alongside shore experiences like guided nature walks, local village visits, picnic lunches, beach BBQs, and wellness classes in yoga, Qigong, and meditation. Every experience is thoughtfully designed to offer adventure, relaxation, and a deep connection with the natural beauty of the surroundings.

Komodo Islands

Komodo National Park is located in the centre of the Indonesian archipelago between islands of Sumbawa and Flores. The World Heritage site is blessed with secluded beaches, amazing coral reefs and crystal clear waters. The area has over 260 coral species and more than 1,000 species of reptiles, dolphins, manta rays, turtles, whales and dugongs. Komodo is considered one of the best dive sites in the world – diving or snorkelling in this area will truly leave you with extraordinary experiences.

Within the national park contains hundreds of unique species such as wild boars, water buffalos, deer's, monkeys and the famous Komodo Dragons. The Komodo Dragon is the largest land – dwelling reptile in the world with the largest found being 3.13 meters long and weighted 166KG. Their foot prints are often seen along pink sandy beaches, or while hiking in the hills with knowledgeable park rangers. They can live up to 50 years and grow over 100kg in weight and up to 3m from head to their tail tip. To raise their body temperature they bask in the sunlight during the day and burrow into the ground at night. They stalk, ambush and devour wild deer, pigs, buffalo and even horse for sustenance.

Approximately a third of the park is taken up by the up by the islands of Komodo, Rinca, Gili Motang, Nusa Kode and Padar, while the rest is marine territory consisting of coral reefs, seagrass beds, mangrove, and semi – enclosed bay. The 1,817 km² Komodo National Park established in 1980 was listed by UNESCO as a World Heritage Site in 1986 and lies in the famous Coral Triangle – the global heart of the marine bio-diversity.

Raja Ampat

Raja Ampat translated means 'four kings', referring to the islands Salawati, Batanta, Waigeo and Misool covering over 17,000 km² of pristine paradise. These are in turn surrounded by a myriad of amazing, untouched smaller isles with picturesque postcard beaches and sheer, ragged limestone cliffs.

The Baliem Valley, running through Irian Jaya's string of jutting mountain peaks, is home to the gentle warrior tribes of the highlands, the Dani. The region on the north-western tip of New Guinea comprises about 1,500 islands spread over 50,000 km² of spectacular scenery. It is here where the remote islands of Misool, Wayag and Penemu are located. 70% of the world's total number of coral species is said to be found in the amazing underwater world of Raja Ampat.

This area has one of the greatest and healthiest coral reefs for its size in the world with nearly 1,200 species of fish and 550 species of coral. Discover the most beautiful soft coral jungles in the world. Raja Ampat, is home to the

world's most biodiverse marine region, an underwater Shangri-La for diving enthusiasts and marine biologists. Above the water, kayak in secret bays enclosed by jagged limestone pinnacles covered with orchids and tropical vegetation.

Cenderawasih Bay

Also known as Sarera Bay, in Papua, Indonesia, is a breathtaking destination spanning 14,535 km². It features diverse ecosystems, including mangroves, coral reefs, tropical forests, and marine habitats teeming with wildlife. History enthusiasts can explore WWII relics like sunken aircraft and ships scattered in its waters.

Your adventure begins in Manokwari aboard the luxurious Alila Purnama. Cruise to Biak to dive among WWII wrecks and trek to spot birds of paradise. At Purup Island, snorkel vibrant coral reefs and encounter reef sharks. In Kwatisore, swim with majestic whale sharks for a once-in-a-lifetime experience.

Ripon Island offers perfect visibility for diving amidst whales, dugongs, and vibrant fish. Conclude with a visit to Warirundi Island, known for its stunning coral reefs and unique marine life like coconut crabs and pygmy seahorses. End your journey with a farewell breakfast before departing from Manokwari.

ALILA JOURNEYS

Ambon to Sorong

Embark on a 10-day cruise through the breathtaking Banda Sea and Ceram Sea, journeying from Ambon to Raja Ampat or vice versa. Discover pristine dive sites, lush islands, and diverse marine life in what has been called the last paradise on earth.

Begin at Ambon Island, known for its volcanic beauty and tropical rainforests. Dive into the waters of Nusa Laut, teeming with turtles, reef fish, and dolphins. Explore Koon Island's vibrant reefs and witness abundant fish life.

Spend two days in Misool, a diver's haven with soft corals, sea fans, and unique creatures like wobbegong sharks. Visit Banda Islands for lava flow diving and explore historic spice plantations and Fort Belgica.

In the Dampier Strait, dive among schooling fish at Sardine Reef. Conclude your journey at Raja Ampat, famed for its pristine beaches, hidden coves, and unmatched biodiversity, before bidding farewell in Sorong.

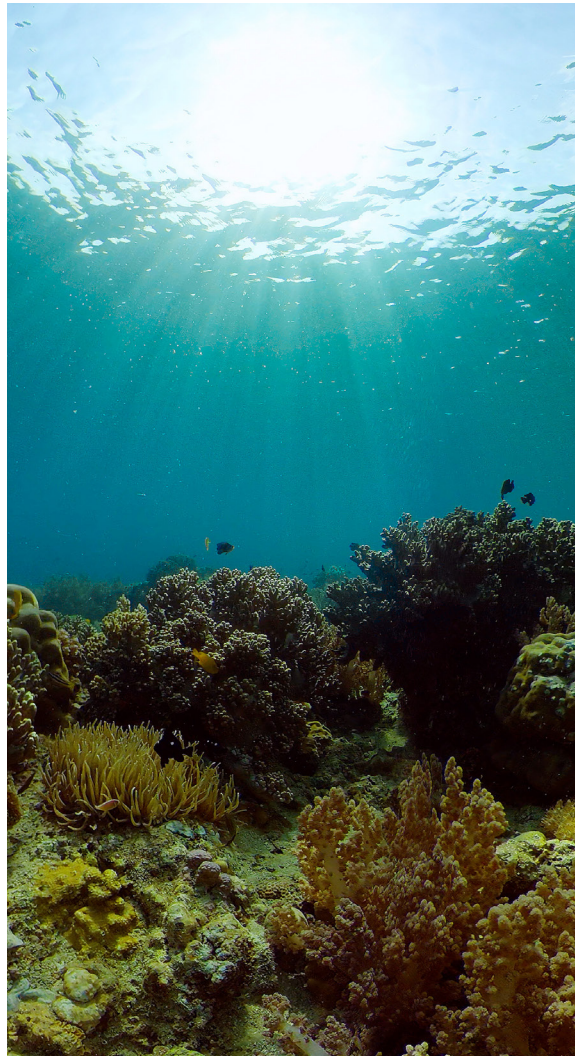

Triton Bay

Remote, pristine, and profoundly beautiful, Triton Bay lies within the heart of the Coral Triangle and remains one of Indonesia's most exclusive marine sanctuaries.

Known for its spectacular soft coral gardens, thriving fish biomass, and dramatic karst landscapes, Triton Bay offers extraordinary diving while also inviting non-divers to immerse themselves in nature through kayaking, snorkeling, beach exploration, wildlife encounters, and cultural discovery.

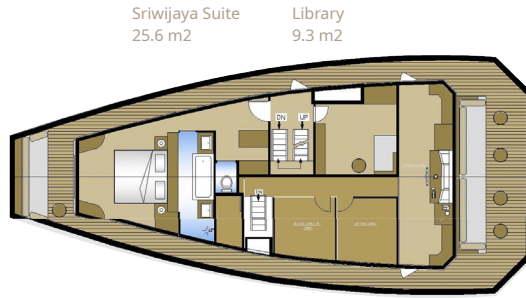

This expedition is designed to balance adventure and indulgence, whether beneath the surface or above it, in a place where few locations on Earth remain this untouched, reefs flourish in kaleidoscopic color, islands rise uninhabited from turquoise seas, and each day feels like a true expedition into the unknown.

Start sailing 2027.
