

ANCALLIA

INTRODUCTION

ANCALLIA is the epitome of a modern classic Feadship. Following her total rebuild from 2011 to 2014, ANCALLIA now combines very high specification machinery and systems within her timeless Feadship lines and a sophisticated interior designed by Colefax & Fowler of London.

As recognition of the quality of her rebuild, ANCALLIA won “Best Rebuilt Yacht” at the prestigious 2015 World Super Yachts Awards and she was the first rebuilt yacht to be awarded RINA Green Star Plus classification as a result of her environmental credentials.

She has been maintained and upgraded further to the highest standards by experienced Owners and a very capable crew.
