ARADOS

Indulgence & Exclusivity

Arados, the flagship from British shipyard Sunseeker's impressive fleet, is as keenly sought-after as she is illustrious. With her interiors lovingly revived in 2018 by the renowned hotel-designer Pierre Yves Rochon, Arados presents as immaculately today as the day she was delivered; 10 years ago. Not only was Arados a proud finalist for the World Superyacht Awards and ShowBoats Design Awards at the time, she has since soared into the upper echelon of charter notoriety, consistently receiving 100% positive feedback from both guests and brokers.

INTERIOR LIVING

Light & Elegant

Pierre Yves Rochon's design philosophy revolves around creating refined, comfortable atmospheres that exude elegance, providing a timeless backdrop for the evolving modern culture. Arados' interior serves as an exemplary exposition of this sentiment. Upon entering the main salon of Arados, it becomes evident the way in which her interior was designed to capitalise on being away at sea. She is not just another one of Pierre Yves Rochon's hotel projects. She is a vessel that transports. A breath of clean air. And with floor to ceiling sliding glass doors and fold-down balconies on either side of the main and upper decks, you won't forget you're out on the water at any moment. With a clean-cut style and light woods and furnishings, Arados' interior achieves a cool, calm, collected and contemporary feel; embracing the simplicity in superyacht living, whilst providing a home of the utmost comfort.
