CAPTAIN

Frederic Laurent
French

Always very close to the maritime environment because of my career as a high-level sportsman within the sailing France Pole team and then among several offshore racing teams in mini or Figaro class, it seemed obvious to me to continue my career in yachting. Following numerous Transatlantic and thousands of miles sailing, my switch to the motor yacht in 2005 as a Captain allowed me to combine my school curriculum (engineer in design office) with my real passion which is working at sea.

Today Captain of the Motor Yacht Daddy's Dream 2, Ferretti 920, and surrounded by a strictly professional crew, I am able to offer our guests a service and a cuisine at the height of the largest hotels while ensuring an irreproachable technical follow-up of the ship
