

*Destiny*

Welcome aboard! A new DESTINY awaits you. The recent total refit has updated and transformed her into the DESTINY of today and takes her forward into tomorrow.

The oversized main salon is the perfect environment for entertaining guests, whether you are enjoying a quiet conversation, watching TV, or playing a game on the 42" plasma screen TV. Refined, yet comfortable, with ample seating and a cozy wet bar to gather around.

Panoramic windows provide unobstructed views of your surroundings, yet a simple touch of a button lowers the window coverings when privacy is desired.

*gracious living*

The elegance of the main salon flows forward to the formal dining area.

Indulge your senses as you savor the exquisite fare prepared for you by DESTINY's chef. The cuisine is highlighted and enhanced as the shimmer of candlelight plays across the gleaming, hand-rubbed inlaid walnut table. The soft light dances on the pure Versace table settings, from the fine china to the sparkling crystal and flatware.

Music surrounds you, setting the perfect mood for the perfect evening. DESTINY carries Sirius XM or, if you prefer your own playlist, there are iPod docking stations throughout the yacht.

*exquisite cuisine*

DESTINY's master suite is a haven of luxury and comfort. Spacious and elegant, it is designed to pamper and indulge you.

A king-sized bed welcomes you to your private retreat. The full entertainment center compliments your choice of music, movies or games. His-and-her facilities are divided by the lavish Jacuzzi bathtub with enchanting etched glass doors. Beautiful onyx enhances and accents this beautiful bathing area.

Whether you choose to slip down for a quick snooze in the middle of the afternoon, sleep until noon or awake to welcome the sun as it peaks over the horizon, it is all up to you. Relax, time is yours.

*refined elegance*

The staterooms on DESTINY are located amidship for maximum comfort.

Your friends and family will appreciate the flexibility of the layout design of the guest staterooms. The sophisticated, mature members of your party will relish the luxury of the spacious VIP stateroom with its queen-sized bed. The young-at-heart will enjoy the more intimate companion stateroom that presents the fun of twin beds, perfect for sharing whispered secrets long into the night. Identical en-suite facilities include a roomy travertine marble shower, complete with a seating area in the shower.

Entertainment abounds in the guest suites. Each room includes an LCD TV with plenty of DVD movies to choose from, as well as premium satellite channel selections. Of course, don't forget the video games! Your guests just might not want to leave their rooms!

*private retreat*

Welcome to the split personality of the pilot house, where intense activity and quiet serenity go hand in hand.

Underway, the pilot house is a hotbed of activity as your captain guides your yacht forward across deep blue seas and azure blue Bahamian waters. Unless he is docking, anchoring or negotiating a tight opening, he will happily share his love of the cruising area with you. Intimate knowledge gained from years of experience allows him to relate interesting facts and stories of the islands you will be visiting.

Once the anchor is down, the guest seating area and table are usually deserted, which makes it the perfect place to tuck away with a good book. Since it is immediately aft of the galley with its country kitchen, you can easily determine when the chef is taking a batch of fresh cookies out of the oven.

*timeless journey*

Soft breezes, sunshine or starlight; relaxing high above the water with a bird's eye view of your surroundings is like being on top of the world.

This is what you have been waiting for. This is what you have been yearning for. Total relaxation is what you have on your mind and this is the ultimate place to open yourself up to it. What to do first? Soak up some sun on one of the lounge chairs or on the sunbed. What time is it? Breakfast, lunch or anytime is perfect to enjoy an al fresco repast at the gently curved table. Perhaps cocktails at the wet bar interest you while enjoying the big game on the TV.

Lounge by the railing on the aft part of the sundeck and cheer the people below you on the water sports decks as they choose their water toys.

*first-class relaxation*

Barbecue Grill

TOWED TENDER

2009 31" Tournament  
Contender with Twin 350hp  
Yamahas

From board games for the youngsters, to PlayStation 3, to an armada of water gear to play on, it's all about the toys and a chance to see if you have the time and energy to try them all out during your stay.

First and foremost, the tender is a 31' Tournament Edition Contender, powered by twin 350 Yamahas. It has plenty of power to speed you to that tiny island with the perfect beach over on the horizon. Just in case you'd rather be closer to the water than on the Contender, two 3-person Wave Runners are at your disposal. For those who wish to be really close to the water, there is an inflatable trampoline to bounce on, snorkeling gear, paddle boards and a myriad of other water toys.

All water activities are easily accessed from the Water Sports Deck with its integrated swim platform. A fresh water shower is available for rinsing the salt water off or using to spray your friends who haven't gotten wet yet. The BBQ grill is also located on this deck, so you might just want to grab a tidbit as you saunter by.
