Gypzy

—

Delivered in 2024, the 26m Princess GYPZY is a striking example of modern yacht design, combining sleek exterior lines with a refined, light-filled interior and exceptional outdoor living spaces. Designed for effortless Mediterranean cruising, she offers a highly versatile layout, contemporary finishes and an impressive selection of amenities rarely found on a yacht of her size.

Inside, GYPZY presents a refined, contemporary interior defined by rich walnut finishes, soft neutral furnishings and expansive panoramic windows that flood the main salon with natural light. Full-height sliding glass doors in the main salon open completely to create a seamless connection between the interior and aft deck. The atmosphere is warm and architectural, with clean lines and subtle ambient lighting enhancing the sense of space. A generous L-shaped lounge and additional sofa create a relaxed social setting, centred around a retractable television, while the dining area comfortably accommodates up to eight guests against a backdrop of uninterrupted sea views. The open galley connects seamlessly to the salon via a stylish bar, which can be screened off for privacy when desired, allowing the space to shift effortlessly between informal living and more formal entertaining.

Below deck, the same design language continues throughout four beautifully appointed ensuite cabins sleeping 8 guests. The full-beam Master suite is particularly impressive, featuring expansive hull windows and a spacious bathroom finished with contemporary detailing and rainfall shower. The full-beam VIP offers similar volume and natural light, while the double cabin and convertible twin cabin provides flexible, elegant accommodation.

Her exterior deck spaces are a defining feature. The aft deck offers adaptable dining for up to eight guests, while the foredeck boasts expansive sunpads with adjustable backrests and a relaxed seating area. The sundeck is the main entertaining space, partially shaded by a motorized louvered hardtop, allowing guests to tailor sun and airflow as desired. This elevated space includes dining for eight, a fully equipped bar with grill, a Jacuzzi, and freestanding sunloungers that can be repositioned to create an open wellness or workout area. Finally the hydraulic swim platform ensures effortless access to the water.

GYPZY's 48ft Anvera Chase tender elevates the charter platform, transforming every arrival into an occasion. Perfect for glamorous beach club drop-offs or bespoke coastal day adventures, it adds a dynamic and luxurious dimension to the overall charter experience.
