

***Harle***

## **A new dawn of yachting**

Uncompromising,  
indisputable, revolutionary

Harle is one of the finest forty-five meter ocean-going yachts in the world. Designed, engineered and built by world-leader Feadship, this yacht has a unique layout and offers unparalleled performance. Many years of professional experience and knowledge were brought together during the design process, resulting in excellent engineering and superb execution.

Guests will love having the master and guest staterooms on the main deck, the yacht's open feel, and the flexible indoor and outdoor spaces that let you live in an environment in which you can enjoy life and experience freedom to the fullest. Large windows create the perfect harmony between the inside and outside worlds. The interior and exterior convey a sense of pleasure and demonstrate complete functionality in every detail. Harle provides a private, safe, luxurious and comfortable cruising experience at all times, at any location on the world's oceans.

Offering a world of luxury, comfort and personal attention, Harle sets the standard for a new generation of world-class luxury yachts.

## ***Made to impress***

A modern classic to the details

Feeling good is not about technology, it's about confidence. The Sinot Yacht Design interior combines clarity in detailing and first-rate materials such as bird's eye maple veneers, dark mahogany, leathers and marble.

A refined feeling for detailing and finish creates a stylish, classical architectural interior environment. Highly contrasting materials and an austere style convey a sense of clarity. Curved shapes and filleted edges enclose the interior, producing a friendly, rich experience. Elementary shapes, symmetry and order are used to emphasize the rich and colorful detailing that makes the interior attractive and charismatic.

The ambition achieved in the design harmonizes the interior with a pleasing architectural aesthetic, creating a modern classic in its own right.

## ***Designed to enjoy***

Only a Feadship feels like this

Harle is a luxurious forty-five meter yacht that feels much larger because of the efficiency of space and an innovative layout. With the galley, captain's and crew quarters below, there is more space available above for guests to enjoy. It is the way one should live at sea, in a world of luxury, comfort and personal attention.

From its smart and innovative layout, its superbly furnished lounges, its luxurious staterooms, and its extraordinary hospitality from a crew second to none – everything you will find on this yacht is geared towards providing the ultimate experience in outdoor and interior living, in relaxation and in sport.

The main areas in the yacht – the main salon, bridge deck lounge, sundeck and lazarette – are all designed for optimum multipurpose use. Harle embodies freedom in every sense and offers all the ingredients for perfect living.

## **Poetry of space**

Open your mind

The spatial layout of Harle has been configured in such a way that all lavish accommodations offer uncompromised comfort and an abundance of space. Whether lounging, dining or entertaining, you can experience the yacht through spaces that offer a multitude of options and can readily be reconfigured to meet your lifestyle. Each space is in itself a glorious environment, inviting guests to enjoy comfortable moments in private. Indoor and outdoor living are seamlessly fused creating an unparalleled guest experience.

## **Let there be light**

Getting the world inside

Harle embodies the ultimate luxury yachting experience. Expert designers have mastered the interface of interior and outdoor space in a way never seen before on a yacht. The enormous windows let an abundance of daylight into the most prominent areas, lightening the guests' mood. Even inside, there is a constant outdoor feel, reflecting the endless and impressive seas, not only due to the light, but also because of the visual aspects created by panoramic views through the majestic windows. Windows in the bridge deck lounge can be completely opened, blending this space with the aft deck to form one large al-fresco area. Harle offers an environment that accommodates everyone's needs at any moment of the day.

## **Room for privacy**

Master stateroom with skylight

The master stateroom, secluded behind double vaulted doors, is certain to entice. The first thing you notice when entering the room is the overwhelming experience of space.

The high central ceiling reaches over three meters, culminating in a large skylight through which daylight enters the room. You can expect softly filtered sunbeams or beautiful starry nights, all enjoyed from the comfort of your bed.

The partition screen and upholstered headboard between the bathroom and bedroom can be recessed to create a single open space.

The roomy layout, accentuated by the unique architecture of the yacht provides the ultimate accommodation surpassing the experience you would have at an award-winning five-star getaway.

### ***Time to relax***

Refresh and pamper yourself

The master stateroom can also be transformed into a day spa with its luxurious circular whirlpool bath centrally located under the skylight. The bath area also contains his and her closets, a two-sink vanity, and a private shower richly finished in Jerusalem Gold marble.

## **Privileged guests**

Something to look at

Every guest's expectation is fulfilled – and more. It's a privilege for a guest to step into the world of Harle.

Guests are assured of a royal residence in one of the four luxurious guest staterooms. Located on the main deck, they are surprisingly spacious, and feature three very large floor to ceiling windows affording stunning views usually reserved for the master stateroom. Each guest stateroom has its own private bathroom with shower, a personal entertainment system featuring a 37 inch LCD high def TV with surround sound and full access to the yacht's media library and internet. This makes living onboard nothing less than perfect. With this degree of opulence, guests may choose to linger in their rooms enjoying the incredible vistas each new day brings.

### **Time to play**

Discover an extra dimension

The lazarette on the lower deck is a multipurpose activity center that can be converted into a fitness studio or recreational area when all the water toys are out at sea. The massive swim platform serves as an extra deck near the water level. From here you can access the water for a refreshing dip, enter one of the yacht's two tenders, or enjoy water sports activities such as waverunners, wakeboards, sailboats or snorkeling.

Fully finished teak stairs provide easy access from the main deck above, so you can greet guests as they come and go. You may also have the crew set up your very own beach club where you'll want to relax in an elegant setting, or simply decide to explore the blue planet at the water-level and below the surface!

## **Sharing the sun**

Large sun deck to top it off

The spacious sun deck is the ideal location to enjoy the sun to the max and indulge in outdoor living. You can sunbathe in peace and quiet on the luxurious sun beds, take a dip in the Jacuzzi, or stretch out in one of the comfortable deckchairs. Music speakers blanket the sundeck for up tempo entertaining or simple easy listening. A large high def TV screen offers the option of viewing sports, shows or movies in casual comfort. The sun deck is a perfect place to dine al fresco in sun, shade or twilight at a table that expands to seat 12 guests. If you want to change the mood or take a break from the sun, a stylish, full-size awning can be erected across the aft deck. And, the sun deck's skylight, yet another feature, lets daylight into the halls around the central stairway, ensuring that all decks receive natural sunlight.

## ***Relax and enjoy***

To entertain or  
to be entertained

All lounges and staterooms have large LCD high def screens with HDMI inputs, Bose surround sound, iPod docking stations, and Apple TV. The sophisticated audio and image display system caters to the needs of all guests in ways unimaginable. Guests can browse the yacht's vast library of music, movies, TV shows; play DVD's & CD's; watch satellite TV; bring up content from their own media or game devices; or link effortlessly to the internet to download any of tens of thousands of songs, movies, and other content available through iTunes. The yacht's art library allows you to view high definition digital images of 8,000 works from over 150 different artists, such as Van Gogh, Matisse, Picasso, and Monet. The world's greatest art is at your finger tips to display in any stateroom or lounge. Stay connected through the yacht's full coverage WiFi network that brings broadband connectivity to wherever you are, plus dozens of power over ethernet jacks and a state of the art Cisco voice over internet system that allows unlimited VOIP calling. Harle offers a world of comfort and convenience exclusively for you to enjoy.

## **Bridge deck lounge**

It is about how smart you are

The bridge deck lounge is a prime location for meeting, dining, lounging and celebrating. The central part of the ceiling is raised to provide optimum spatial perception. Large panoramic windows on the side slide open and the rear aft doors fold away to create a convertible al fresco area. The floor of the aft deck runs seamlessly into the lounge, visually and functionally joining the two spaces into one large space. Furniture can be configured and reconfigured into an amazing number of arrangements depending on what the day or night brings - entertaining, dining, meeting, lounging, and cinema viewing all can be readily accommodated in a multitude of settings as illustrated by these diagrams.

## ***Our talents***

### Top crew, top chef

Fast, discreet and completely at your service. Our top crew caters for a luxurious and convenient stay aboard Harle. They often anticipate, and always accommodate your wishes and will make sure your stay has an unprecedented level of hospitality. Our chef de cuisine prepares five-star food presented and served in a creative and artistic way. The menu has no boundaries; all culinary desires can be translated into an array of surprising and delectable dishes.

## **Private affair**

A pleasure doing business

The private office provides the perfect place to catch up on the morning news or to take care of any necessary business before heading out on your day's adventures. Located behind the bridge, the office is a comfortable, full-beam room affording incredible vistas and undisturbed privacy away from the other activity on the yacht. The office converts to a roomy sixth guest stateroom with a murphy bed, privacy wall and full bath with shower en suite. During the day, the bed folds away and the room can revert to a working office or small lounge to enjoy quiet time at your own pace.

## Accommodations
