NEVERLAND II

# Where Time Slows to Stay

---

The 44.5m Sanlorenzo NEVERLAND II was delivered in 2020 as part of the acclaimed 44 Alloy series and recently refit in 2026. She combines a sleek aluminum hull with a tri deck layout that delivers exceptional volume, fluid indoor outdoor living, and a layout purpose built for elevated charter.

She accommodates up to 11 guests across five staterooms, highlighted by a class leading two level primary stateroom. The suite unfolds across two levels and features exceptional volume, a dedicated upper lounge and entertainment area, a walk in closet, and a spacious ensuite.

Outdoors, the beach club opens through fold down balconies to port and starboard. This level also houses a fully equipped gym with ocean views, encouraging wellness at anchor.

Above, expansive exterior decks are arranged with multiple alfresco dining and lounge areas, while the forward main deck jacuzzi and sun lounge provide panoramic views and an inviting setting from sunrise through sunset.

# Main Deck

---

The main deck is designed for both entertaining and relaxed cruising, with a seamless indoor outdoor flow characteristic of Zuccon International Project. Aft, a shaded lounge anchors the exterior space, offering direct access into the salon for smooth service. Sliding glass doors reveal an expansive main salon defined by clean architectural lines, generous glazing, and a warm contemporary palette. Guests are welcomed by a bar upon entry, while a comfortable lounge area is arranged to capture the views and the formal dining space provides an elegant setting for hosted evenings onboard.

Forward through a private foyer, the full beam split level primary stateroom unfolds across two levels. The entry level includes a secluded foyer with a dedicated study area, while a staircase leads down to the spacious sleeping quarters and well appointed ensuite. A separate internal staircase connects to the upper level lounge and entertainment area reserved exclusively for the principal guest. The result is a main deck that balances social energy with privacy, delivering expansive gathering spaces alongside a truly residential style suite within one cohesive layout.

# Lower Deck

---

The lower deck opens at sea level into NEVERLAND II's expansive beach club, a defining feature of her charter experience. The transom opens fully to the water, while fold down balconies to port and starboard broaden the platform and create a wide, immersive connection to the sea. Optional umbrellas can be arranged aft for shade, transforming the area into a true waterfront lounge. Inside, a relaxed seating area with a table and television provides a comfortable retreat between swims, while the gym equipment can be set up within the space, allowing guests to train just steps from the water. Entirely positioned at sea level, the beach club becomes a dynamic extension of life on the ocean, equally suited to wellness sessions, casual afternoons, or post swim gatherings.

Inside, the guest accommodations include three queen staterooms, along with an additional cabin configured with one double bed, one twin, and a Pullman berth, accommodating up to nine guests in total. Each stateroom features its own ensuite, while the queen staterooms are equipped with a built in desk that easily functions as a workspace or vanity. The design language remains consistent throughout, offering a calm, contemporary atmosphere that complements the social energy of the decks above while ensuring privacy and quiet for every guest onboard.

# Upper Deck

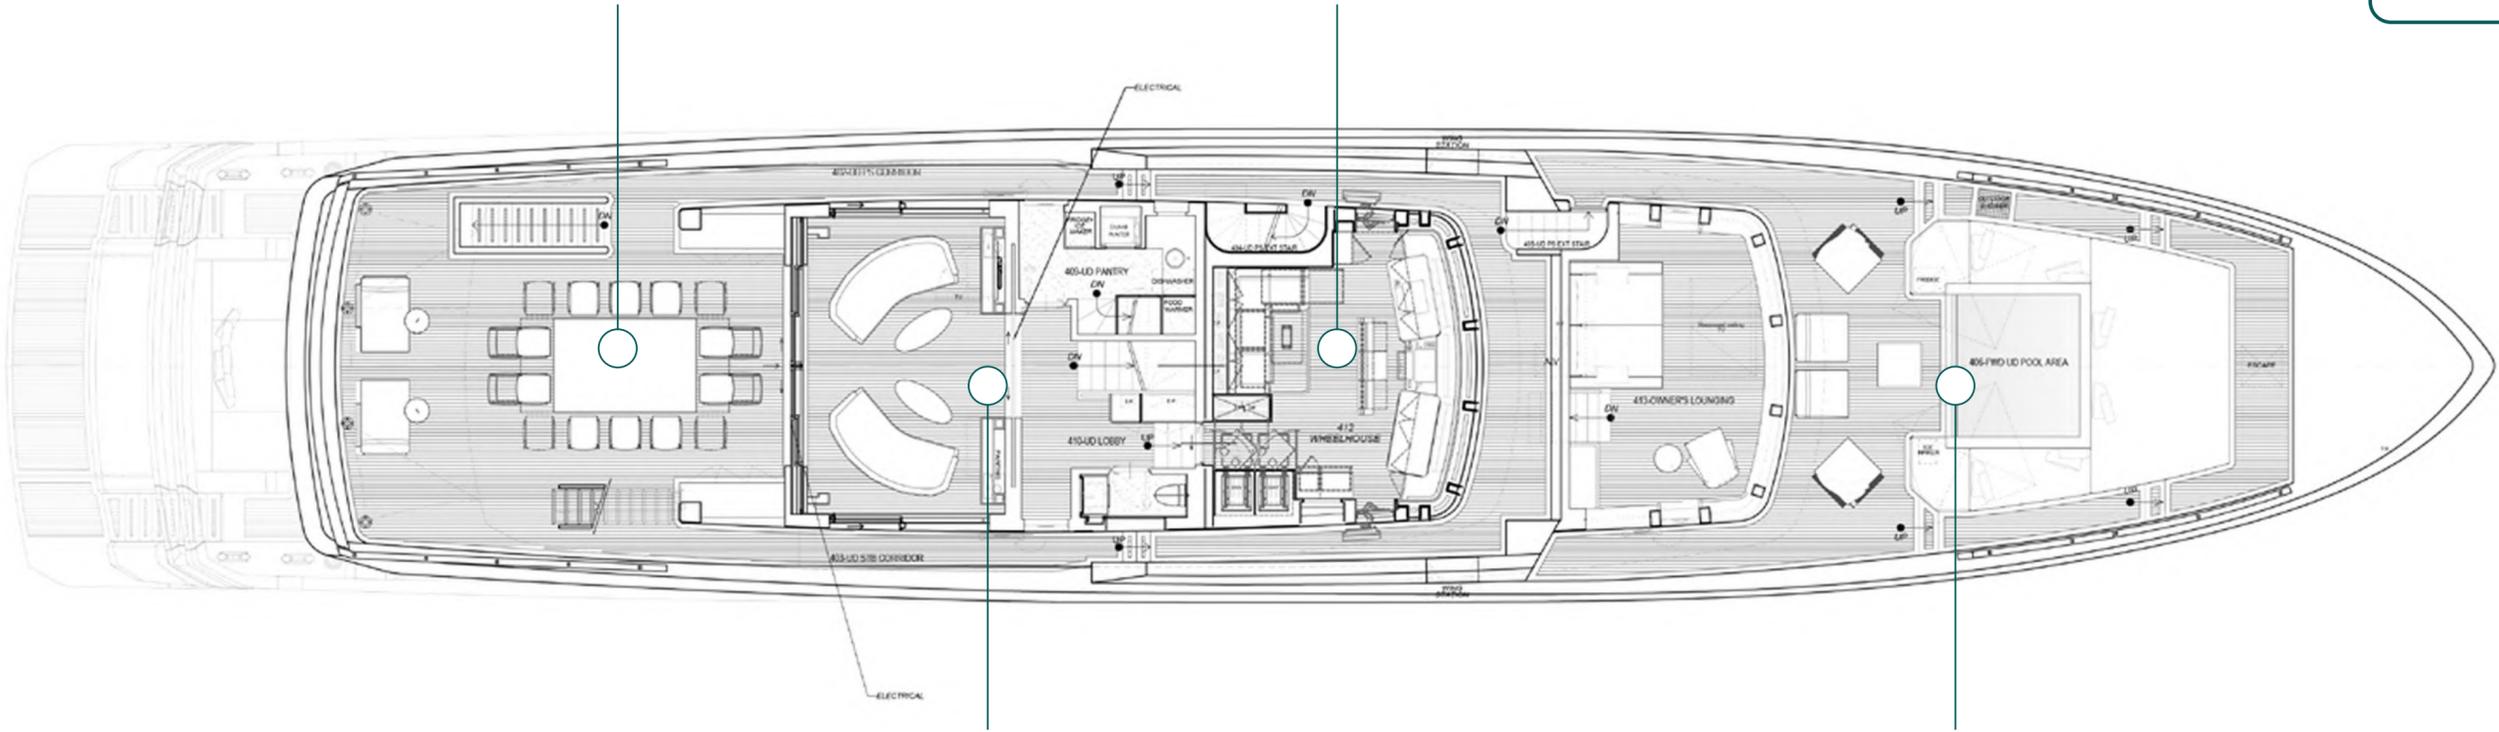

---

The upper deck continues NEVERLAND II's balanced approach to social space and privacy, combining elevated exterior entertaining areas with an inviting interior retreat. Aft, the bridge deck lounge is arranged for relaxed alfresco living, with generous seating and a dining table positioned to take full advantage of the views. Whether set for sunset cocktails or open air dinners, this level offers a more intimate alternative to the main deck.

Sliding doors lead into the skylounge, a comfortable interior escape designed for evening gatherings or quiet afternoons out of the sun. Large windows maintain the visual connection to the surrounding cruising grounds, while flexible lounge seating allows the space to transition easily from movie nights to informal meetings or relaxed conversation.

Forward of the skylounge, the wheelhouse is equipped for confident cruising while remaining separated from guest areas. The foredeck features a jacuzzi surrounded by sunpads and lounge seating, creating a panoramic vantage point ideal for long days at anchor. Elevated above the water and removed from the social areas aft, this space offers a private sun drenched retreat with uninterrupted views ahead.

## Sun Deck

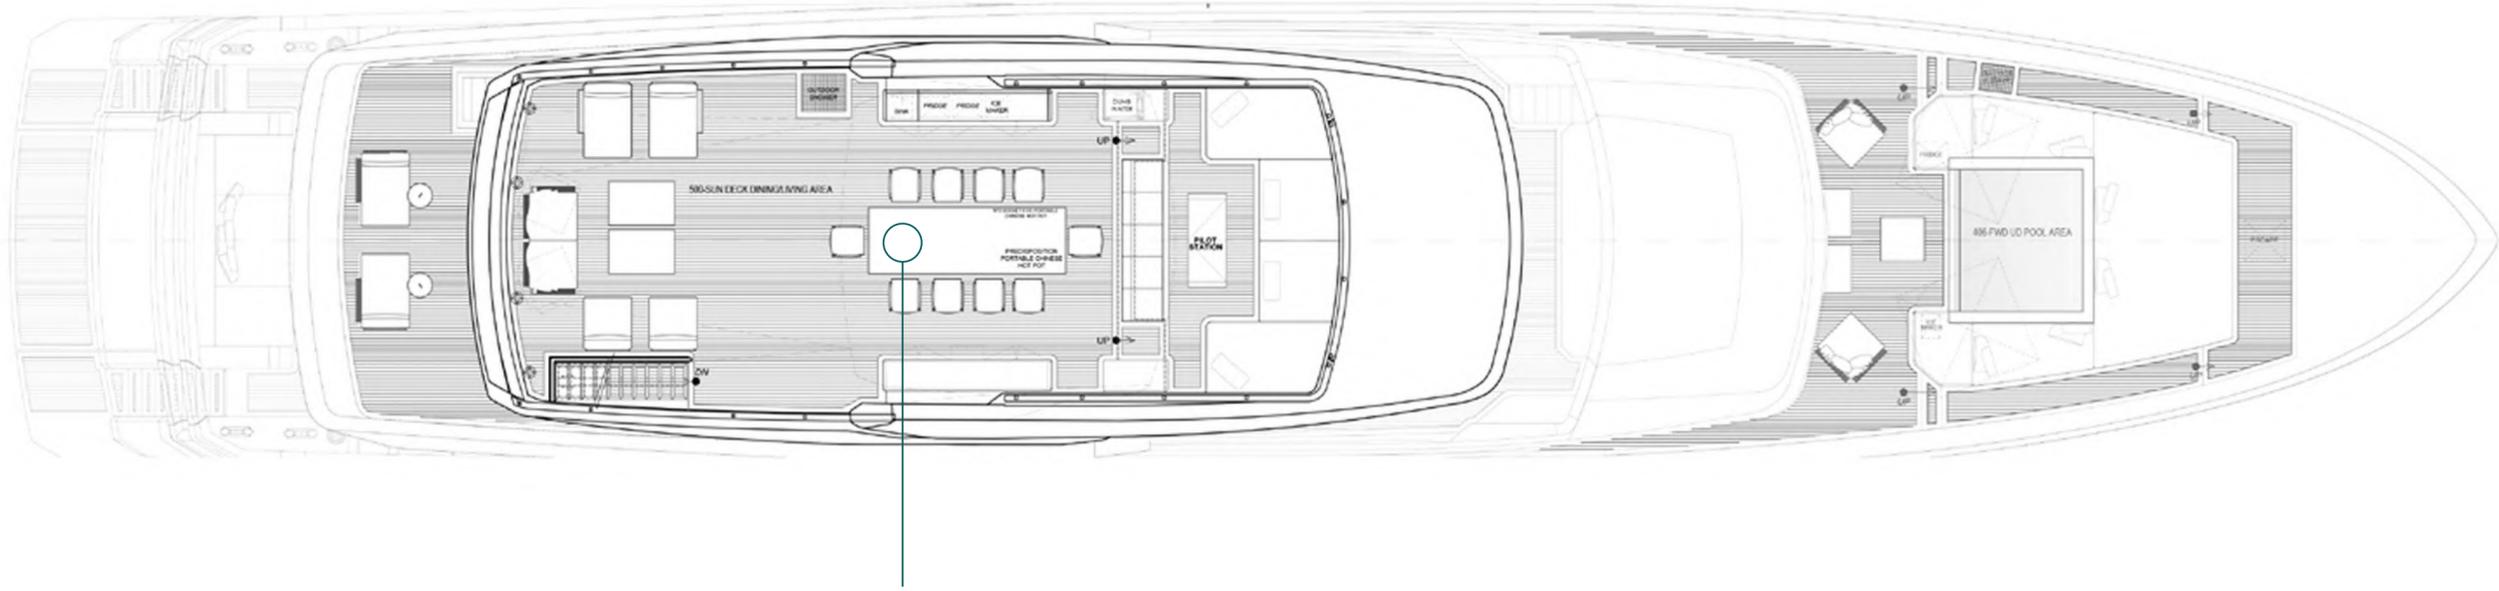

---

Crowning the yacht, the sundeck offers an elevated setting dedicated to open air living and panoramic views. Aft, a generous lounge area invites guests to settle in with cocktails in hand, positioned high above the water with uninterrupted sightlines across the horizon. The atmosphere here is relaxed and social, ideal for late afternoons underway or evenings at anchor.

Amidships, shaded dining creates a comfortable setting for long, leisurely meals protected from the sun while still fully immersed in the surrounding scenery. The arrangement allows service to flow easily while maintaining a sense of privacy and exclusivity at the top of the yacht.

With its combination of sun, shade, and sweeping views, the sundeck completes NEVERLAND II's vertical lifestyle experience, offering yet another distinct environment for guests to gather, unwind, and take in the journey from above.

# Tenders & Toys

---

NEVERLAND II carries a practical and well rounded selection of tenders to support daily cruising and guest transfers. Her 37' (11.3m) 2024 Axopar towed tender is ideal for comfortable shore runs and coastal exploration, complemented by a 21' (6.4m) and 11' (3.4m) Williams Jet Tenders for shorter transfers and operational support.

For watersports, she is equipped with a SeaDoo waverunner and two 2023 SeaBob F5 units, offering guests the option for light adventure and easy exploration at anchor. The selection is streamlined yet effective, supporting relaxed days on the water while maintaining a clean, uncluttered onboard setup.
