

POLAR STAR

A yacht that outshines the rest

PREPARE TO BE AWESTRUCK

Cruising by private yacht is an ethereal travel experience. Not even the world's grandest resorts can move you through the azure seas that pave your way to remote Caribbean islands or to star-studded European ports-of-call. Luxurious amenities and a five-star staff are dedicated to just you as you visit the destinations of your customized itinerary. Gourmet menus and seaside activities are designed around your tastes. There's no better escape from the everyday. Your only task is to choose a yacht that delivers. Welcome aboard Polar Star.

By definition, a pole star is especially prominent; one that outshines the rest. This appropriately named 64-meter megayacht truly stands out. With four levels of living, sumptuous accommodations for 12, a professional crew of 17 and smooth cruising via ice-class hull, Polar Star's design, service and comfort elevates yachting standards to unprecedented heights. Lürssen originally built this striking vessel in 2005, but a recent comprehensive refit has prepared her to impress today's most discerning charter guests.

SINK INTO THE PALATIAL INTERIOR AND FEEL A MILLION MILES AWAY

A perfect place to unwind, socialize and dine, the understated elegance of the Aileen Rodriguez décor is reminiscent of a charming New England home. Where large windows showcasing majestic views end, a floor-to-ceiling hand-painted mural completes the scene. Gold and crystal light fixtures and a foyer entering the main salon aft creates an extravagant ambiance. An ultra-plush couch faces a 46-inch plasma TV that rises from an antique-looking armoire. If you prefer a quiet game of chess, a handsome study with leather inlays in Oak flooring is accessed through an adjacent door. Along the salon's starboard bank of windows, formal dining can be set for up to 12 guests ready to enjoy the culinary expertise of Polar Star's world-class chef.

POSTCARD-LIKE PANORAMAS ENVELOP THE PRIVATE MASTER RETREAT

Enjoy stellar unobstructed views through huge inverted windows from the intimacy of your own master quarters, which occupy its own deck level. A separate foyer creates a grand entrance into the full-beam suite. Aside from the king bed, a comfortable couch and lounge also face the breath-taking sights, and a table with two chairs creates an ideal spot for morning coffee and croissants.

A discreetly concealed 32-inch flatscreen TV lifts from the footboard of the king-sized bed in the 12.8-meter wide suite. His-and-hers ensuite marble baths with heated towel racks offer both a large Jacuzzi tub and walk-in shower with overhead rain fixture.

SAVOR MOONLIT MEALS SET AGAINST COASTAL BACKDROPS

Alfresco dining and socializing in the natural atmosphere of your cruising destinations are exquisite treats while yachting. Aft of the master quarters is a hypnotic setting to take in a sunset or enjoy an evening under the stars. A large dining table with chairs, a well-stocked wet bar with stools and many loungers set up this area for delectable cocktails and cuisine. For another treasured pastime onboard, a port stairwell leads up one deck for a soak in the outdoor Jacuzzi.

OWNER'S DECK TO BRIDGE DECK

SURROUND YOURSELF WITH FINE LINENS
IN LAVISH ACCOMMODATIONS

Located on the main deck, Polar Star's spacious staterooms feature ensuite heads with either tub, or newly installed marble shower with rain fixtures, custom benches and stone mosaic floors. All cabins are equipped with 37-inch flatscreen TVs and entertainment systems. A coral pattern, bold art and a teak sink completes cabin two where the king bed easily converts to twins for flexible sleeping configurations. One deck below, a fifth twin-berthed cabin, pictured above, includes a larger 42-inch flatscreen, a custom-designed lighted vanity table and additional shoe storage built into sliding shelves under the berths.

RELAX AND REJUVENATE IN THIS ELEVATED REFUGE

A blue and white color scheme is used throughout the skylounge where soft couches and rotating chairs are great for interacting around the mock fireplace, which imparts a home-like feel while at sea. New silver leaf and crystal star embellished sconces detail the foyer entering this enchanting sanctuary. Forward of the skylounge and up one level is the state-of-the-art wheelhouse that takes full advantage of the elevated visibility gained on the bridge deck. Moving aft, a 10-person outdoor Jacuzzi also provides excellent unobstructed views since no tenders are stowed here as on many other yachts. The surplus of yacht toys stow discreetly in the lazarette.

The well-equipped gym located on the bridge deck features two Life Fitness treadmills, a stationary bike and Stairmaster, as well as four 15-inch TVs with DVD players so you can maintain your workout routine while onboard. Then, reward tired muscles in the sauna accessed through a portside door on the aft deck.

POLAR STAR

Type / Rig: Tri-Deck Motor Yacht
 Builder: Lürssen Shipyard, Germany / 2005
 Refit: 2011
 Length: 208 feet (63.4 M)
 Draft: 12 feet (3.65 M)
