SALT is a 62m CRN-built superyacht redefined for a more immersive kind of charter. Privately owned until now and newly refreshed in a 2026 refit, she presents in exceptional condition: fresh, considered and untouched by the charter circuit.

EXTERIOR LIVING

Life on board SALT is centred around her decks and her connection to the water.

Across multiple levels, guests move between sun-soaked lounging areas, shaded dining spaces, and more private corners designed for complete switch-off. With her inviting Jacuzzi, generous sunpads, relaxed seating and flexible dining setups for up to 12 guests, the mood on board shifts naturally throughout the day.

At sea level, a standout beach club creates a true focal point. Spacious and beautifully designed, it becomes the social heart of the yacht, whether for morning swims, pre-lunch drinks, or late afternoon lounging. From here, the experience extends even further. A large inflatable sea platform transforms the yacht into a private ocean base, complete with pontoons, jellyfish seapool, lounging areas and a protected swimming zone.

This is where SALT comes into her own. Guests in and out of the water, toys constantly in use, music playing, drinks flowing – and no real reason to leave.

THE INTERIOR EXPERIENCE

Inside, SALT offers a calm, contemporary environment with a noticeable sense of space and quiet. Clean lines, soft materials, and a restrained palette create an atmosphere that is elegant without feeling formal, thanks to the intricacy of attention to design by Valentina Zannier, who heads the interior division at Nuvolari Lenard.

Originally built with a strong focus on acoustic control, the yacht benefits from an unusually low level of onboard noise. The result is a space that feels composed and private, even when the yacht is fully in motion. SALT is known for being a 'smart yacht' with every experiential element being adjustable: from lights to music, temperature and the audiovisual. SALT changes to suit her guests.

ACCOMMODATION

SALT accommodates up to 12 guests across six cabins.

The arrangement comprises a full-beam Master suite with floor-to-ceiling windows on the Owner's Deck, one VIP cabin, two double cabins, and two 'triple' cabins, each configured with a double and single bed, and an additional Pullman berth, allowing up to four guests each. This provides an exceptional degree of flexibility across the guest accommodation.

As a result, SALT is particularly well suited to a wide range of guest groups, from families to mixed parties, with multiple sleeping configurations.

Each cabin is designed with privacy, proportion and ease in mind, maintaining the same calm, contemporary feel found throughout the yacht.

ONBOARD DINING

Food on board SALT is a central part of the experience, with two highly accomplished chefs on board each charter, ensuring a consistently exceptional and thoughtfully executed approach. Working in tandem, they create menus that are entirely tailored to guest preferences, using the finest local ingredients and drawing inspiration from the destinations visited.

HEALTH & WELLNESS

Wellness on board SALT is woven into the experience, offering a quiet sense of restoration that feels as natural as the sea itself.

Guests can make full use of a well-equipped gym with Technogym equipment and free weights, along with open deck areas suited to stretching or yoga. A dedicated onboard masseuse and physiotherapist offers tailored treatments, while a hammam provide additional space to unwind.

It is there when you want it. After a long day on the water, between meals, or simply as part of a slower rhythm on board.

TOYS & TENDERS

SALT is built for guests who want to be on the water, not just looking at it.

Her inventory is extensive and designed for constant use:

- F9 SEABOBs (2025)
- Jellyfish Seapool
- Jet skis
- E-foils and Fliteboards (2025)
- Kayaks and paddleboards
- Inflatable platforms and sea lounges
- Extensive collection of fishing equipment

A high-performance 8m Hodgson custom tender supports smooth transfers, backed by additional craft for operational flexibility. A fully equipped onboard dive centre adds a further dimension, opening up access below the surface and positioning SALT as a yacht built for genuine exploration.

SALT offers something rare. A yacht that combines serious capability with a deeply enjoyable way of living on board.

New to the charter market and designed for guests who want more than just a beautiful setting, she is a yacht that people will talk about long after they leave.

Once on board, it becomes very clear why.

*“This is a yacht to be experienced.
To be enjoyed.
To be remembered.”*
