

SEA FORCE ONE

LONDON

SEA FORCE ONE

SEA FORCE ONE, with her extraordinary design and decor, has set what can be considered a new milestone in the yachting world.

A mysterious black hull is topped with an elegant and almost military-looking grey superstructure. A mixture of curves and rigid lines surround a spectacular state-of-the-art LED lighting and music system into which guests can immerse themselves, feeling almost in another world.

The owner's suite and the four guest cabins share the overall themes of the boat - luxury, comfort, elegance and absolute entertainment - although each is quite different in decor, providing residents with different experiences as they pass from one area to another. Ultra-soft fabrics, leather floors and Barrisol ceilings make her an amazing entertaining venue at night, while during the day both the beach and the impressive sun-deck make it hard to bring yourself to leave SEA FORCE ONE.

UPPER DECK SALOON

SEA FORCE ONE

A fully fledged home cinema and a disco bar make the on-board entertaining experience a step up from almost any other yacht of her size.

SEA FORCE ONE has been developed to conform to the sought-after RINA's Green Star code and she also is one of the first yachts worldwide to be awarded RINA's Secure Yacht coding relating to the standard of personal safety and security for crew and guests.

Her impressive hull design allows her to cruise at over 15 knots, reaching a max speed of 18 knots, while her zero speed stabilizers provide a comfortable stay for her guests.

The balconies and skylights connect her unique and generous interior spaces to the outside world, making SEA FORCE ONE the ultimate example of modern luxury.
