

AIAXIA

AIAXAIA: A New Generation of Greatness in Yacht Charter

Luxury and comfort were the guiding design principles for this beautiful yacht which was built to expand on the success of her popular sister yacht Navilux. The Ercegović family have built a long maritime tradition as boat owners and captains on the Adriatic Sea since the 19th century. Given the success and market recognition for their first luxury yacht Navilux they decided to go further and build AIAXAIA. 46m in length, this sailing yacht guarantees modern luxury with generous cabins, numerous amenities, recreational activities, an onboard chef, and personal attention to every client's wishes.

AIAXAIA delivers for passionate sailors, gastronomy lovers, sports enthusiasts and sun worshipers. To sum it up in one word: enjoyment. You are invited to experience the Adriatic and Caribbean seas on this yacht hosted by the third generation of Ercegović family. Come and get to know her and be a part of this superb experience.
